

1

**Information
Session &
Eligibility
Checking**

This session happens completely between Viya's Legal team and the client. It's aim to provide necessary information to client about citizenship and Viya about the client.

2

**Contract
Signature
& Creation
of File**

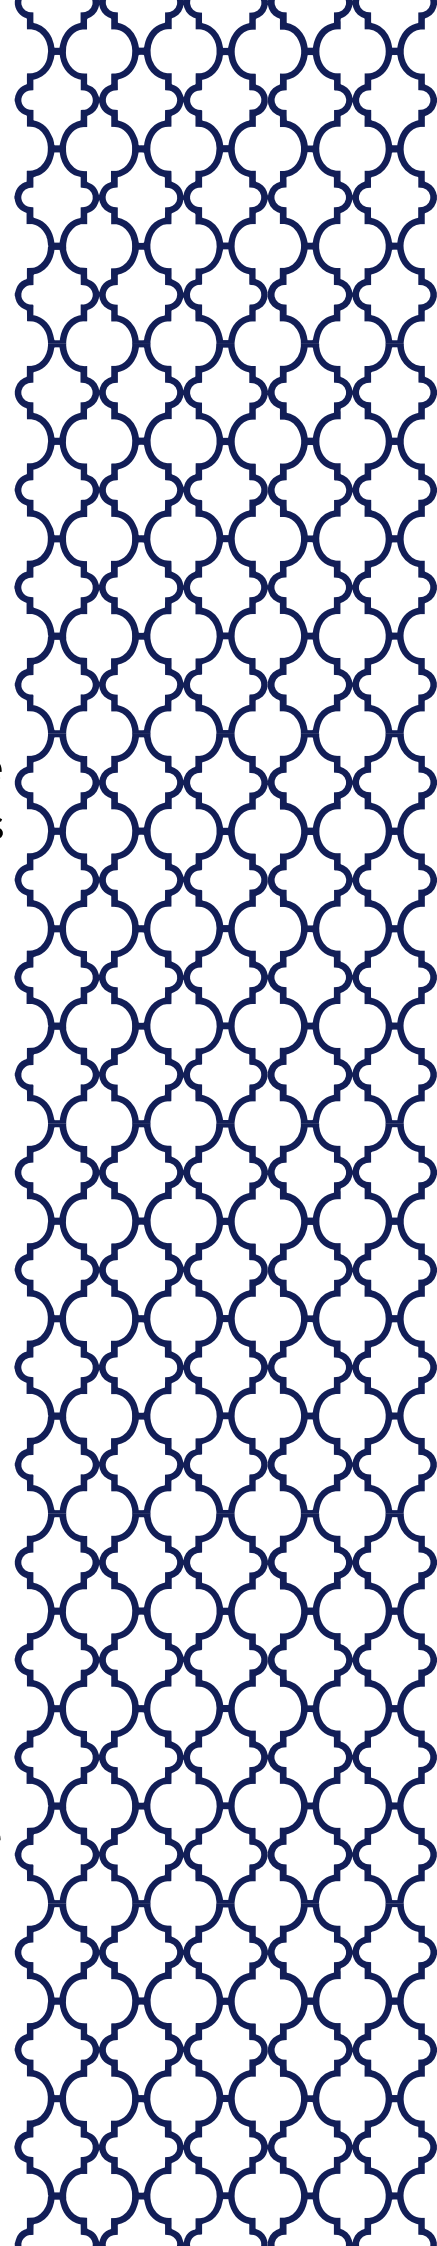

In this part of the process we sign two binding documents with the client. First is our company contract which contains our fees and an estimated delivery time and we also collect the required documents from the client and make it into a file.

3

**Selection of
Investment
& Transfer of
Fees**

This part begins with Viya introducing the client with the investment options he may like and after the client chooses we assist the client with the transfer of the funds. In some cases we need our partners to help with the assistance.

4

Power of Attorney Authorisation

In this part of the process we will require the client to physically sign a power of attorney for us to follow his citizenship case and successfully finish it. It can be given anywhere where there is a Turkish Consulate.

5

Completion of Chosen Investment

This is the part where we go to the title deed authority and get the title deed on behalf of the client with the right annotation on it. We also provide the valid valuation for the property accordingly.

6

Completion of Necessary Documents

With the annotation put on the title deed and the valuation report ready, the needed documents are completed and the application is ready to be made.

7

Checking & Creation of Application

This part of the process is now starting fully automated by Viya. Our lawyers will apply to the immigration authority with the necessary documents.

8

Remaining Procedures & Submission

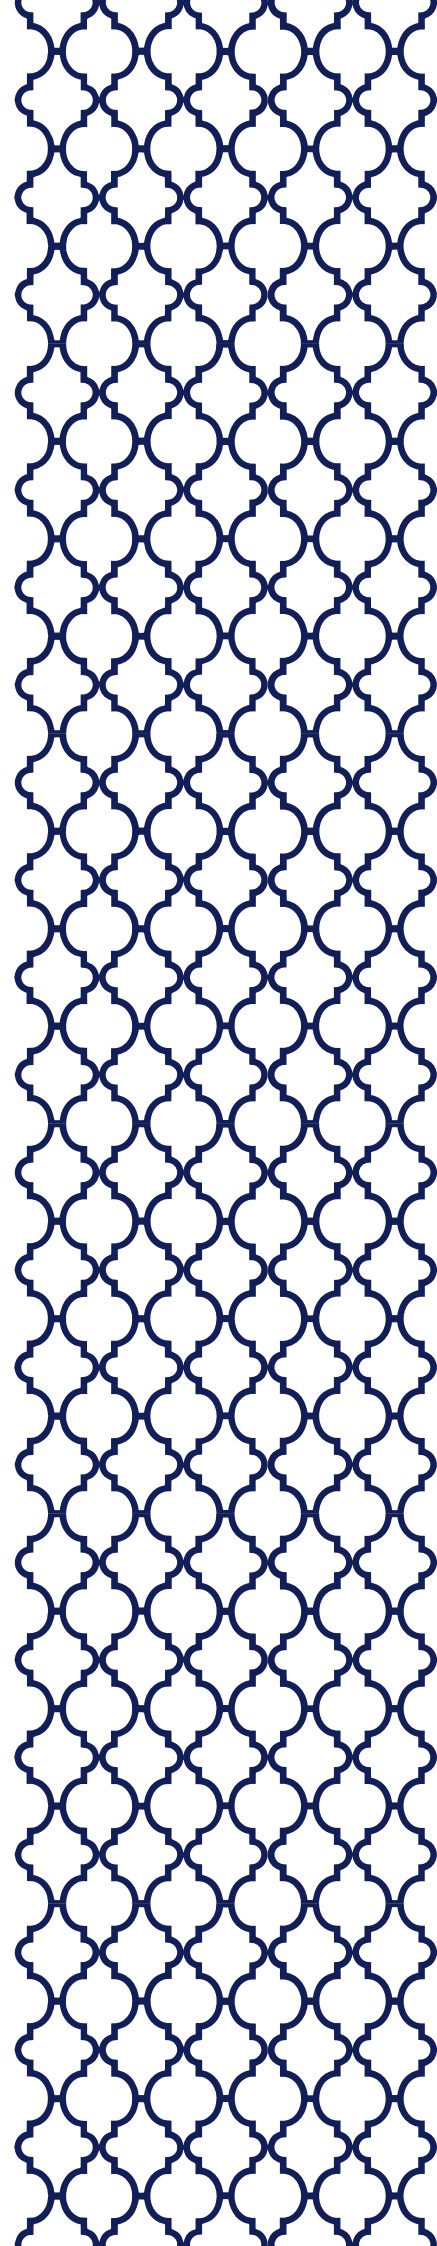

The 8th step of the citizenship application is something special to Viya, we follow up the clients applications with our own methods so that the case is successfully finalised as fast as possible.

9

Residency Permit Reival

After the investment whether it's real estate or financial, we will receive and provide the client with the residency card in 15 days.

Final Citizenship Approval

When the citizenship approval comes, it is basically the final step. Now the client has a Turkish ID number and everything.

Official Approval by Presidency

In this step the approval is signed by the president Recep Tayyip Erdoğan and then sent to the client.

Biometrics & Reveal of Passports

This is the part where we either finish here in Turkey if the client is in Turkey, or in the Turkish Consulate in any country they are in. They will be giving their biometrics and receiving Turkish ID and Passport.
